Corporate Social Responsibility Statement

Provide SESS Ltd define Corporate Social Responsibility as follows

- 1) Conducting business in a socially responsible and ethical manner
- 2) Protecting the environment and the safety of public
- 3) Supporting Human Rights
- 4) Engaging, learning from, respecting and supporting the communities and cultures with which we work

Provide SESS Ltd is constantly striving to enhance the public view of the Security Industry as a whole, whilst also being mindful of how our company is perceived in the local area, and minimising our effect on the environment for our and future generations.

To ensure that we are constantly working to achieve this, all procedures and business functions that relate to our services have been designed with these values in mind. This ethos is communicated to all employees, and to all relevant stakeholders.

Duty of care to the public is paramount. In both protecting property and securing events our company must ensure that we do so in a safe and accountable manner. This is achieved by ensuring all staff are trained to carry out their duties effectively, conduct their duties in line with company procedure and create partnerships with Police and Local councils where appropriate.

Provide SESS Ltd management ensure appropriate organisational structure and decisions are made with this in mind and will continue to monitor, manage and evaluate Corporate Social Responsibility issues relevant to our business.

As our business grows, with the above ideals in place we believe that Provide SESS Ltd will continue to change both our customers, consumers and the wider public's view on the Security Industry and promote an open book approach to the service that we provide.

To ensure this is implemented Provide SESS Ltd:

- Adheres to our environmental policy
- Donates to local charities and causes
- Forms strong bonds with customers, and partakes in regular sporting fixtures outside of work
- Utilise mass transit and promotes car share as much as possible.
